Office

PROJECT SIZE

8,900 SF

COMPLETION DATE

2014

The relocation of FNB Southeast's Headquarters from Reidsville, NC to Greensboro, NC represented a significant transition to a prominent address. Over a tight timeframe of fewer than 12 weeks, Workplace Architecture + Design (Workplace A+D) spearheaded the design and interior upfit of the 25,000-square-foot facility, ensuring a seamless transition and swift completion. Workplace A+D facilitated meticulous space planning to optimize functionality and flow within the new space. This encompassed not only spatial coordination but also detailed color and material selections, millwork design, and the curation of furnishings to align with FNB Southeast's aesthetic and operational requirements. Moreover, the scope of services extended to artwork and accessories, enhancing the ambiance and reinforcing the corporate identity of the headquarters.
