2006

Partnering closely with the Life Enrichment Center (LEC), a private non-profit organization in Shelby, NC, Workplace Architecture + Design (Workplace A+D) embarked on a collaborative journey to envision and develop a comprehensive Facility Program for a groundbreaking project: a new Adult Day Care and Health Services Center. This endeavor involved on-site engagement with the team of staff, who exemplified commitment to serving their participants with the utmost care. Workplace A+D meticulously crafted a program that not only met but surpassed expectations. As a testament to their shared dedication to sustainability and excellence, the Shelby LEC achieved a remarkable milestone, becoming the first LEED certified Adult Day Health Center in the United States.
