

Office
**Duke Energy Kings Mountain
Generation Support Center**

LOCATION

Kings Mountain, NC

SERVICES

Sustainable Design

PROJECT TYPE

Office, Industrial, Sustainable
Design

PROJECT SIZE

157,000 SF

COMPLETION DATE

2011

Workplace Architecture + Design (Workplace A+D) spearheaded a comprehensive suite of LEED consultation services for the Duke Energy – King’s Mountain Generation Support Facility, aimed at achieving sustainability excellence. This encompassed administration and guidance throughout the project lifecycle, ensuring adherence to the rigorous standards set forth by the US Green Building Council’s (USGBC) LEED rating system. From initial assessment to final certification, Workplace A+D played a pivotal role in orchestrating the facility’s journey towards LEED accreditation. By leveraging their expertise in sustainable design practices and navigating the intricacies of the certification process, the team facilitated the implementation of environmentally responsible strategies and technologies. This commitment to sustainability underscores Workplace A+D’s dedication to creating spaces that not only enhance operational efficiency but also minimize environmental impact
