LOCATION

Archdale, NC

SERVICES

Interior Design, Furniture
Specification, Programming,
Move Management

PROJECT TYPE

Retail, Showroom

PROJECT SIZE

44,947 SF

COMPLETION DATE

2017

Established in 1971, Häfele has been a global leader in the hardware industry with its headquarters in Nagold, Germany. To better serve North American markets, Häfele America Company was founded in Archdale, NC, in 1989. Facing growth plans and space constraints, the leadership enlisted Workplace A+D for a programming study, leading to space planning and construction documents for an \$8 million expansion and renovation of their headquarters. Acting as the lead point of contact, Workplace A+D provided full-service project management and interior design, overseeing the design team and reporting to Senior Management. The completed facility, a testament to Häfele's commitment, offers a modern workplace, fostering collaboration and innovation, with room for future expansion. - Paul K. Smith, President of Häfele America Co.
