99,753 SF

COMPLETION DATE

2018

In anticipation of Qorvo's new Building M, Workplace Architecture + Design embarked on a transformative journey to modernize Qorvo's corporate HQ, Building A, while accentuating Qorvo's distinctive branding standards. The redesign focused on revitalizing the lobby and 2nd story atrium into a sleek and inviting space, creating a warm welcome for guests and employees alike. An innovative Work Café now serves as a hub for collaborative activities, replacing the former executive conference room and providing versatile amenity space. Furthermore, the building's cafeteria underwent a significant overhaul, offering a variety of seating options and areas conducive to lunch meetings. Throughout the renovation process, finishes were upgraded to harmonize with Qorvo's evolving brand identity, ensuring a cohesive and impactful workplace environment.
