2018

Workplace Architecture + Design (Workplace A+D) embarked on a journey to the Philippines, extending their expertise in interior design and architecture consulting to enhance a two-story office component and factory floor workspaces for a valued long-term client. The project unfolded through collaboration with the Developer's architect, ensuring a holistic approach to the design process. Workplace A+D crafted comprehensive interior design documents, orchestrating every aspect from furniture layouts to millwork details, while harmonizing furniture, color schemes, and material selections to reflect the client's vision.

Moreover, the scope of the project encompassed specification and procurement consultation for the furniture and equipment, underscoring Workplace A+D's commitment to delivering end-to-end solutions tailored to client needs. This endeavor stands as yet another testament to the relationship Workplace A+D cultivates with its clients, showcasing the trust that underpins each collaboration.
