LOCATION

Winston-Salem, NC

SERVICES

Programming, Interior Design,
Furniture Specification,
Architecture

PROJECT TYPE

Coworking, High Rise, Innovation
Center, Office

PROJECT SIZE

18,035 SF

COMPLETION DATE

2019

Flywheel LLC, The Flywheel Foundation, and Workplace Architecture + Design occupy the entire eighth floor of this newly-renovated 18 story tower at 500 W Fifth Street in Winston-Salem NC. The synergy gained by co-locating these three entities in the same space allows the team to work very collaboratively with other communities who are seeing to develop their own innovation centers. Our experience of designing, constructing, initial set-up and ongoing daily operation of this space, as well as our additional locations, gives us a very unique perspective and first-hand knowledge around coworking and innovations centers.
