 Interior Design, Programming, Architecture, Sustainable Design

**PROJECT TYPE**  
 Innovation Center, Office

**PROJECT SIZE**  
 11,000 SF

**COMPLETION DATE**  
 2019

Unifi engaged Workplace Architecture+Design to craft their Global Innovation Center. Collaborating closely with Unifi’s marketing and product development teams, Workplace conceptualized an innovative showroom, renovating approximately 11,000 sq. ft. of office space. The Global Innovation Center will serve as a collaborative hub for clients and partners, fostering the development of new ideas and products. In a second phase, Workplace A+D led the redesign of the adjacent employee Commissary, aiming to bring the same level of detail, uniqueness, and brand integration to the primary employee break room for the one million+ square foot factory. The design prioritizes sustainability, incorporating organic forms and natural materials, with custom-designed concave walls, a 100’ long ‘Fiber Cloud,’ and the use of Unifi’s Reprieve Fiber in all upholstery.
